Arlington, Virginia, US, 22203 English

BACKGROUND

ABOUT

IT professional and entrepreneur with demonstrated system design and implementation capabilities. Diversified skills in system architecture, software development, and systems integration. Experienced technical team manager and punctual deliverer of high-quality software and services using Agile development approach.

WORK EXPERIENCE

CEO/President, Gridscape Systems, LLC

Nov, 2007 - Present

I founded Gridscape Systems, LLC in 2007. Since then, the company's services have been contracted for a variety of large-scale software implementations within the federal government space. Clients include federal law enforcement agencies and the Department of Homeland Security.

Senior Associate, Sapient Corporation

Oct, 2005 - Nov, 2007 2 years 1 month

At Sapient (now Publicis), I worked on a variety software implementations for federal government clients, including the Department of Defense, federal law enforcement, and the intelligence community.

Consultant, Accenture / Accenture Federal Services

Nov, 2002 - Oct, 2005 2 years 11 months

At Accenture, I worked on a variety software implementations for federal government clients, including the Department of Defense and the US Postal Service.
